# Election 2024: Presidential results

Donald Trump became America’s 47th president after mounting the most momentous comeback in political history that handed him massive, disruptive power at home and sent shockwaves around the world. Four years after leaving Washington as a pariah, following his attempt to overturn the 2020 election to stay in office, Trump’s victory defied two assassination attempts, two presidential impeachments, his criminal conviction, and many other criminal charges.
